Welcome to the Help Section!

How to play:

- Each turn consists of 2 card flips
- If the second card you flip matches the first, you have made a match and your match combo multiplier goes up by + 1
- If you don't make a match, both cards are flipped back, this is a "miss" and your combo multiplier is set back to zero
- After two misses, your points and combo multiplier for the round are reset and all cards are flipped back
- Win a round by successfully matching all cards without missing twice. After winning continue to the next round with the points from the previous round

WARNING: Pressing Reset or Help will reset the game and you will lose all progress

• Match Values:

Mushroom = 1, Flower = 2, Star = 5, 1up = 7, 10coin = 10, 20coin = 20
